- JDN Explosion Protection

## Tip of the Month

JDN Ultra-Low Monorail Hoists UH 4 up to UH 12 are now available with new driving motor based on the Profi TI.

## JDN in Application

Handling an oil export-pump on a drilling platform in the North Sea. In application: A JDN Monorail Air Hoist EH 20, a Profi 10 TI and a mini 1000.

## We proudly present: J.D. Neuhaus L. P. - USA

J.D. Neuhaus L.P. was established in 1989. Today 12 employees are working there in the fields of sales, engineering & service. The company, located in Sparks, Maryland, attends to the markets North and South America as well as Canada. Like JDN in Germany JDN L.P. has installed a Quality Management System according to ISO 9001, certified by Det Norske Veritas. JDN L.P. is member in the „Hoist Manufacturers Institut“ (HMI), in the association „Material Handling Industry of

America“ (MHIA) as well as in the organisation „Associated Wire Rope Fabricators“ (AWRF).

## JDN Explosion Protection

JDN Air hoists and cranes are - contrary to electrically operated - suitable for application in hazardous areas. The driving medium air opposite to electricity does not produce any sparks.
