Tip of the Month

In the password protected area of our website registered user can now download a maintenance video of JDN Air Hoists *mini*.

OTC 2008

The 2008 Offshore Technology Conference will be held from 5th to 8th May in Houston. The OTC is the world's foremost event for the development of offshore resources in the fields of drilling, exploration, production and environmental protection. You will find us at the German Pavilion, booth no. 4527.

For further participation in trade fairs please have a look in the „News“ area under www.jdn.de.

We are looking forward to your visit.

Questions regarding this newsletter may be forwarded to: info@jdn.com.sg.

International Mining Brochure

Over 50 years JDN Air Hoists have successfully proven in underground mining.

They stand out due to their standard suitability for application in areas where there is a risk of explosion; e. g. in face support, in shaft or in repair shops underground.

With this brochure we introduce to you on eight pages JDN Air Hoists and winches which are predestined for these jobs.

Please ask for your requested quantity.

JDN in Application

During maintenance and repair works in low space areas JDN Low Headroom Trolleys show their strength. In this case during maintenance works in a pump station. In operation: 8 JDN Air Hoists Profi 6 TI in motorised Low Headroom Trolleys.
